My professional background and team building strengths, allow me to assist the Design Director in the pursuit of achieving strategic department goals. My objective is to help carry out details for the company by obtaining these goals, ensuring the team accomplishes successful results, and by making relevant decisions ensuring clear communication and accountability.

My experience as an independent manager and in-house designer can greatly assist with both critical thinking skills and professional leadership to aid in the strategic development of the Design Department. My background and business skillsets are a plus in creating sustainable performance for the company by fostering relationships, team development, and the conditions for respectful listening and productive communication. I bring a positive attitude, promoting transparent and rapid decision-making, while encouraging the culture of healthy design team collaboration.

• Personality

- Open minded
- Methodology and Perseverance
- Altruism and Team Spirit
- Socialization
- Emotion

During the course of my career, I have met with the challenge of managing my professional business activity while maintaining and implementing the necessary care and support required during a period of serious illness of both my parents.

Thus, I committed to the choice to actively perform well in both roles.

This experience required daily balance of a high level of my work competences, combined with selfless organization of logistical and care giver support, including estate planning, medical care and human relationships. In context, during this period, I managed to maintain a high level of leadership skills while acquiring new experiences in areas of humanity, relationships and business.
